

INSTRUCTIONS TO USE THE FILE TO PLAY BINGO.

When you open the file, you will receive a warning because of macro used in the file. You must enable the content.

TAB	INSTRUCTIONS
Watch Me	To start playing you click on “1 st Question” and the first question of the list will show up. In the yellow box, it will show the questions to the students. When you want to move to the next question just click on “Press for next question” until you reach to the end of the game.
Teachers	The column in yellow shows the questions to read. The column in white shows the corresponding answer. If you click on the button “Randomise teachers’ card” the order of the questions will change. You might want to print out a copy of the spreadsheet to follow the answers of your students.
Words	In this tab, you can change the questions and answers to make a new game using this as a template and save it with your name. At the bottom of the questions and answers is a space to change the topic.
Cards	When you click on this tab you will find 4 cards by default. Print them out. Click on the button “Randomise cards” and you will have a new set of four cards. Print them out and repeat this step as many times as you need to have enough different cards for your students.
ENJOY PLAYING BINGO
